

WILDLIFE SANCTUARIES AND NATIONAL PARKS

Wildlife Sanctuaries and National parks are the places where animals are allowed to live in their natural habitat , they are protected from hunters and thus wild life sanctuaries help wildlife to survive.

Some of them are :-

1. Corbett National Park - Uttarakhand [Tiger]
2. Kaziranga Wildlife Sanctuary - Asom [One horned rhinoceros]
3. Gir National Park - Gujarat [Asiatic lions]
4. Bharatpur Bird Sanctuary - Rajasthan [Siberian crane]
5. Kanha National Park - Madhya Pradesh [White tiger]
6. Sunderbans - West Bengal [Royal Bengal Tiger]
7. Desert National Park - Rajasthan [Black buck]
8. National Chambal Sanctuary - Madhya Pradesh [Ghariyal]
9. Bandipur National Park – Karnataka [Elephant]
10. Periyar Sanctuary - Kerala [Elephant and Barking Deer]

Extinct Species - Species that are not found anymore. example - Pink headed duck , Dodo , Dinosaurs.

Endangered Species - Species that are very few in numbers and face the danger of extinction. Example - Black buck , tiger , crocodile , Indian rhino.

Note – Locate these on a political map of India.
